MADRID, June 21.

ORDERS have been sent into the several Maritime Provinces of this Kingdom for Troops to canton along the Coasts, and for a Detachment that is encamped in Biscay to erect Redoubts and Stacados in the Places on that Coast, which lie the most expos'd. People here flatter themselves, that the King of France will send a Squadron of fifteen Men of War to Cadiz, in case the Differences between this Court and that of Great Britain, should not be determined by an Accomodation.

STOCKHOLM, June 24. O. S. The Court has receiv'd, with as much Surprize, as Dissatisfaction, an Account, that the Baron de Sinclair, a Swedish Officer, who about five Months ago had been sent by this Court to execute a Commission at Constantinople, in the beginning of June set out from thence with a French Merchant, and took the Road to Poland. From Kaminieck, quite thro' the Polish Territories, he was constantly pursued by some Soldiers 'till he came into Silesia, where they overtook him, and demanded the Papers that he had with him; with which the Baron refus'd to comply, and undertook to defend himself; but he soon was kill'd by the many Wounds received from their Sabres and Swords. They afterwards carried off his Papers. It's reported by some, that there was nothing of Importance among them but a Treaty of Commerce between Sweden and the Porte. Others pretend, that there were Papers of the utmost Consequence. The French Merchant, who was witness of this Tragedy, proceeded on his Journey without Interruption. This Act of Violence makes a great Noise, for which the Court is resolved to procure itself Satisfaction.

MADRID, June 26. O. S. Upon the Receipt of an Express from London, Mr. Keene went to Court, and declar'd to the Ministers of the King, that Affairs between the Two Crowns were so circumstanced, that his Britannick Majesty was determined to permit his Subjects to make Reprisals upon the Spaniards; whereupon fresh Orders were sent to the Ports to continue diligently to equip all the Men of War capable of being fitted out. It's said, that at Cadiz and in Galicia twenty-four are at present ready to put to Sea. The Fortifications of several Ports of this Kingdom, and particularly those of Ferol in Galicia, are repairing and augmenting; upon which, together with the Naval Armament, the Court has already expended 6000000 of Pieces of Eight. Orders have been given for a great Number of Ships to cruize upon the Coasts of Galicia, and upon that near Cadiz. M. d'Itturalde, Secretary of the Finances, has presented a Project to the Court, which has been approved of, for reducing the Appointments of several Officers, both Civil and Military, to whom this Scheme gives great Discontent. The Stipend of 36000 Ducats given to the Duke de Montemar, as General in Chief, was thereby reduced to 12000; but that Lord made such strong Representations thereupon, that it has only been reduced to 24000 Ducats.

CADIZ, June 24. O, S. The Dutch Man of War, commanded by Capt. Wassenaer, arrived here Yesterday. We hear that the 27th of last Month the Captain met with a Corsair of Sallee off of Cape Spartel, whom he sunk; the greatest Part of the Crew, which consisted of 200 Men, were drowned, and the rest, among whom were several Christians, got on board the Dutch Ship. It is still reported that the Flotilla, which has all its Cargo on board, will set sail for the West-Indies; but a great many People still question it. Several Men of War keep themselves in readiness to set sail behind the Puntals.

STOCKHOLM, June 22. O. S. The French Squadron came up the 19th Instant, about Four in the Afternoon. M. d'Antin saluted with 15 Guns the Castle here; which was return'd with 16. As soon as the Squadron came to an Anchor, M. St. Severin, the French Ambassador went on board, to pay a Visit to M. d'Antin, and to invite him and a Number of his Officers to Supper: The Ambassador was received on board with a Discharge of 15 Guns. This Morning M. St. Severin carried M. d'Antin to Carlberg, to present him and his Officers to their Swedish Majesties. Most of the Officers are gone by Water in eight of their Boats. They are to be admitted to an Audience out of Mourning, tho' the Court is in it since Sunday, for the Death of the Duke of Holstein.

NAPLES, June 26. O. S. A Courier has been received from Madrid, with Dispatches concerning Measures to be taken between this Court and that of Spain, in case of a Rupture with Great Britain.

London, July 21. *An Extract of a private Letter from the Hague, dated the 17th of July.*

'It's just now reported here, that thro' the Vigilance and Activity of the British Ministry, a Discovery has been made of a formidable Design laid to invade Great Britain in favour of the Pretender, which, it's said, was to be executed by Spain, Sweden, and a third Power, which every Body imagines must be France. This unquestionably must have been of the Cause of the great Armament made at this Time by the Court of Great Britain, and not merely its Contests with Spain; and this occasion'd the British Ambassador, in his last Conference with the Members of the Government, not only to make a fresh Demand of the Succours stipulated by antient Treaties, but likewise that their High Mightinesses would enter into a stricter Alliance with his Britannick Majesty than hitherto, for their mutual Security, and Defence of their just Rights. That Minister at the same time also represented, that the Conduct of Spain, was such as would no longer admit of the Ways of Negociation, and as the Republick had its Grievances to be redress'd, his Britannick Majesty propos'd to act in concert with it, in Order to force that Power to do Justice to the Subjects of the two Nations. Which Proposals their High Mightinesses, as usual, took Time to consider on. Many Colonels and Dutch Officers already solicit to go into England in case the 6000 Men be sent thither.

'People

People here were exceedingly ſurpriz'd at the extraordinary ceremonious Behaviour of the Marquis de St. Gilles, Ambaſſador from Spain, towards Mr. Walpole; the Marquis being the firſt of the foreign Miniſters who went to compliment him upon his Return to the Hague, and afterwards made an Entertainment for him and his Lady. What this Miniſter, who affects to be a plain Man, void of Ceremony, had in View by ſhewing theſe unuſual Civilities, at a time when Matters between the two Nations were drawing towards a Criſis, cannot eaſily be conjectured.

LONDON, July 19. We hear that the Rev. Mr. Whitefield, about two Months ago, returned to the Truſtees for Eſtabliſhing the Colony of Georgia, their Commiſſion to him for collecting Money for Georgia, declaring, that he had never made any Uſe thereof. We hear alſo, that his Majeſty, having granted Permiſſion for the Ship Two Brothers ſailing immediately to Georgia with Cloathing and Proviſions for Col. Oglethorpe's Regiment, the Truſtees ſent a Letter about a Fortnight ſince to Mr. Whitefield to return by this Opportunity to his Duty in the Colony; which, by a Letter from Briſtol to them, he has declined, chuſing (as he therein alledges) to go thither by the Way of Pennſylvania, after the Embargo is taken off.

By an Expreſs arrived laſt Night we hear, that 48000 Ruſſians and 6000 Calmucks, had actually march'd thro' Poland, to aſſiſt the Emperor againſt the Turks.

Auguſt 9. Orders are given for forthwith raiſing Ten Regiments of Foot, and twenty-five additional Men to each Troop of Horſe and Dragoons.

Auguſt 11. The Greyhound Man of War being upon a Cruize, was fired at by a French Ship from Martinico, on which the Man of War gave her a Broadſide, boarded her, and carried her into Gibraltar. The French ſay in their Defence, that they took the Greyhound for a Sallee Rover, which occaſion'd their firing.

B.* The above Fines muſt be paid in Bills of the new Tenor.

It is determined by the Commiſſion Officers of the Regiment in this Town to make a ſtrict View of Arms on Thurſday next.

At a Meeting of the Freeholders and other Inhabitants of the Town of Boſton laſt Friday, a Petition of ſundry of the ſaid Freeholders and other Inhabitants, ſetting forth the Defenceleſs State of the ſaid Town, relating to their Fortifications, in caſe of a War, was read, praying that the Town would do what may be neceſſary for Fortifying the ſame; and after a conſiderable Debate, a Committee was choſen to draw up an Addreſs to the Great and General Court therein, to ſet forth the Defenceleſs State of the Town, and to uſe all Arguments proper to induce the Great and General Court to Fortify the Town of Boſton; and accordingly the Town paſſed a Vote, That the Select Men ſhould wait upon his Excellency our Captain General to acquaint him of the Town's Proceedings in the Premiſſes, which they did accordingly.

BOSTON, *Sept.* 24.

We have an Account of a very ſorrowful Accident which happened at Tolland in the Colony of Connecticut, on Saturday the 1ſt Inſtant, viz. The Wife of Mr. John Field of that Town, being with Child, long'd for Honey; her Brother being willing to do what he could to ſatisfy her Deſire went out a Bee-Hunting, and at laſt trac'd the Bees to a Tree wherein they harbor'd; but when he came to it found it mark'd with two Letters of ſome Perſon's Name, who had before diſcovered it: which he return'd and inform'd of; whereupon the Woman went with him to the Tree, but he not caring to venture to meddle with the Neſt without Leave, return'd with the Woman about half way Home; when ſhe perſiſted in her Reſolution to have ſome of the Honey, and accordingly return'd to the Tree again, and he went Home to fetch ſome Veſſel to put the Honey in; ſhe having a Hat on, ſat down at the Bottom of the Tree on a riſing Ground, waiting till her Brother came. In the mean time, a third Perſon who was hunting after Bees, perceiving a Line of Bees, tho't they lodg'd in a Tree ſome Rods diſtant from that where the Woman was, and keeping his Eye fix'd upon that Tree, making towards it, the Dog diſcovering the black Hat on the Woman's Head, ſuddenly run back between his Maſter's Legs, whereupon looking about, he diſcovered the Hat moving, and thinking it was a Bear (which are frequent thereabouts) he diſcharg'd his Gun, which was loaded with 3 Swan Shot, right towards it; and lodg'd one of them in the Woman's Jaw, another in her Breaſt, and a third in the Pit of her Stomach; he hearing a diſmal Groan, tho't he had mortally wounded a Bear; but for further Security, charg'd his Gun with a Bullet, and then made directly towards it, where to his Surprize he found his Miſtake, that he had kill'd Mrs. Field; and accordingly he went and carried the ſad Tidings himſelf of what he had thus done.-----He was try'd at the Superior Court at Hartford, and acquitted.

On Wedneſday laſt the Great and General Court or Aſſembly of this Province met here, being the Time to which they were prorogu'd: When his Excellency the Governor was pleaſed to ſend the following Meſſage to both Houſes of Aſſembly, *viz.*

Gentlemen of the Council, and of the Houſe of Repreſentatives,

SINCE your laſt Meeting, I have received the KING's Royal Order for granting Commiſſions of Marque and Repriſals to his Majeſty's Subjects, for their ſeizing and taking the Ships, Veſſels and Goods belonging to the King of Spain, his Vaſſals or Subjects. As this Matter will greatly affect our Commerce and conſequently all the other Eſtate and Intereſt of the Province, you will conſider what is incumbent on the Legiſlature to do for the Safety and Protection of the Perſons and Eſtates of the People under our Care, and what may be neceſſary to be done for putting the Frontiers by Land into a more defenſible Condition. I have ſo often in the Courſe of nine Years paſt laid before the ſeveral Aſſemblies, the neglected State of the Fortifications and Garriſons on the Frontiers, that I think it needleſs to repeat thoſe Things to you. But if you deſire it, I ſhall ſend a Committee of proper Perſons to View and Report to me the preſent Condition of all the Fortifications in the Province, and ſhall then lay it before you.

The Inhabitants of Boſton, which is the Capital of the Province, and the Mart for its Trade, have in a particular Manner apply'd to me to recommend to you the defenceleſs State of their Town; that its decayed Batteries may be raiſed out of their Ruins, and the Town put into a good Poſture of Defence. It is the conſtant Care of every wiſe Government to ſecure its Metropolis; and I hope you will not be wanting in your tender Regard to the whole Country, by taking a ſeaſonable Care of the Town of Boſton.

On this Occaſion I might mention many other large Sea Port Places that lye much expos'd to an Enemy; but thoſe may be thought

thought on after a View taken and a Return made by a Committee.

Gentlemen,

As Money is wiſely call'd the Sinews of War, ſo you muſt be ſenſible the Expence neceſſary to be made as ſoon as poſſible for your Safety, cannot be defray'd without it. And you alſo know in how naked a Condition you left the publick Treaſury at your laſt Riſing; you will therefore now make an ample Supply for Payment of the Debts already due from the Province, and for defraying the future growing Charge, while Things abroad ſeem to have ſuch a threatning Aſpect upon us. I hope every Part of the Legiſlature will do what lies with them to promote Concord and Unity among themſelves, and that we ſhall behave with great Reſpect and Duty to the beſt of Kings, whoſe eſpecial Aid and Favour we may ſoon be Suitors for.

As this is a Time of Year of much private Buſineſs, I am willing to refer other Things to the Winter-Seſſion, and deſire you to give theſe Matters their due Weight and beſt Diſpatch, that you may the ſooner Return to your Domeſtick Affairs.
